

# K&B what's new

## cupboards that care ▼

Caredesign has introduced the innovative Indivo system from Pressalit Care, a system designed to help maintain the independence of disability sufferers and the aged. The Indivo system of cupboards and benchtops electrically adjust to a person's height and position, enabling them to remain in their own homes with dignity, safety and comfort.

The unique lifts contained within telescopic legs and behind cupboard fittings make it possible to adjust the height and allow the user to carry out as many functions as possible unaided. Caredesign has a wide range of products and systems for functional bathrooms and kitchens.

## custom copper ►

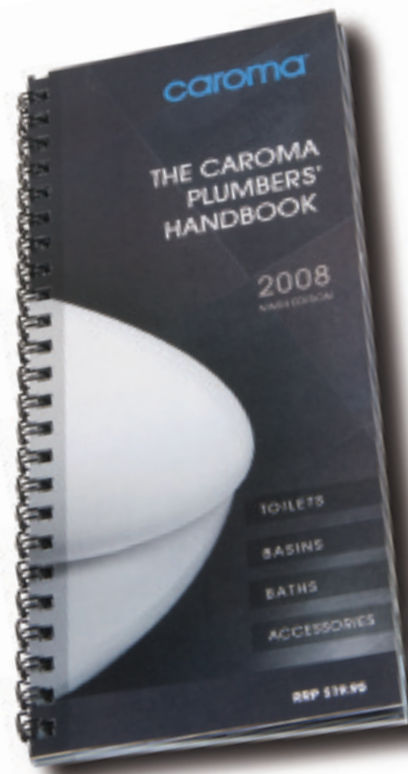

Caroma Dorf has added copper jumper valves to its market-leading range of water-efficient tapware. The change benefits 29 ranges of tapware within the Caroma, Dorf and Irwell brands.

Guaranteeing higher performance as well as extending the life of the tapware, all three-piece tapware ranges in the Caroma, Dorf and Irwell brands will be supplied with the custom engineered copper jumper valve.

Caroma Dorf has also increased the warranty time on the jumper valve from three months to one year, giving plumbers piece of mind about quality and durability.

According to Caroma Dorf, customers can be assured of even higher performance under consistent water pressure, reduced noise and water hammer, as well as the longevity and durability of their tapware.

## ▲ plumbers' bible updated

Caroma has just released its ninth edition of the Caroma Plumbers' Handbook – otherwise known as the plumbers' 'bible'.

This comprehensive, practical technical guide provides invaluable help to plumbers with both domestic and commercial installations.

Completely updated and expanded, the handbook now includes more technical and installation information, and is designed to simplify the specification process for all products in the Caroma toilet suite, basin, bath, urinal and accessories ranges.

The new-look handbook comes in a practical and convenient pocket-sized spiral book with a durable polyprop cover. It is fully indexed and easy to use, and features more than 400 pages of useful technical information, product codes, design notes and diagrams, plus the latest technical product changes.
