HIA youthBUILD Careers Seminar

To coincide with the recent 2008 HIA Home Show over 750 students, teachers, parents and career advisers from schools across New South Wales attended the "HIA youthBUILD Careers Seminar" at the Sydney Convention Centre.

The seminar allowed students to hear about the building industry from representatives from The Australian Industry Group, National Electrical Contractors Association, Metal Roof Cladding Association, HIA Apprentices, Laurie Cosentino from Wisdom Homes and Nicolle Drake from Wood Appeal.

Current HIA Apprentices (pictured right) were also available to give advice to students wanting more information about apprenticeships.

Following the presentation students were able to talk one on one with the speakers as well as the Australian Brick and Block laying Training Foundation (ABBTF), TAFE and the Department of Education and Training.

The day would not have been possible without the support of the NSW Department of Education and Training, State Training Services.
