

HIA update - Enterprise Based PPP Funding

Don't miss out on the opportunity to increase the skills of your workforce and the productivity of your business!

What is the Enterprise-Based Productivity Places Program (EBPPP)?

The EBPPP forms part of the Productivity Places Program under the Commonwealth's Skilling Australia for the Future policy and is a joint initiative of the Department of Education, Employment and Workplace Relations (DEEWR), Industry Skills Councils and enterprises.

The Housing Industry Association is operating in partnership with the Construction and Property Services Industry Skills Council (CPSISC) to provide training and skills development for enterprises in the housing industry. The objective of the EBPPP is to assist enterprises to increase their productivity as well as skill levels by providing employees with opportunities to increase their qualification levels. Currently HIA VIC Training Services have a limited number of funded places available.

Find out how this funding can benefit your business

Eligibility criteria exist for enterprises to receive funding for existing workers. All applications are subject to approval by the Construction and Property Services Industry Skills Council (CPSISC). HIA Training Services staff will be able to assist you if you require further information or clarification on qualifications and licensing requirements in Victoria

How to apply?
