

Dwelling Unit Commencements

Dwelling Units Commencements - Australia

Key Points:

- ↻ Total seasonally adjusted dwelling unit commencements Australia-wide decreased by 5.6 per cent during the March 2019 quarter to be 25.1 per cent lower than a year previously.
- ↻ During the 2018 year dwelling commencements were 3.9 per cent higher than in the previous year.

Residential building

A residential building is a building predominantly consisting of one or more dwelling units. Residential buildings can be either houses or other residential buildings.

Commenced

A building is commenced when the first physical building activity has been performed on site in the form of materials fixed in place and/or labour expended (this includes site preparation but excludes delivery of building materials, the drawing of plans and specifications and the construction of non-building infrastructures, such as roads).

Conversions etc.

A conversion is building activity which converts a non-residential building to a residential building, e.g. conversion of a warehouse to residential apartments. Conversion is considered to be a special type of alteration. 'Conversions, etc.' are the number of dwelling units created as part of alterations and additions to, or conversions of, existing residential or non-residential buildings and as part of the construction of non-residential building. 'Conversions, etc.' are shown separately in tables 4 to 6 and are included in the total number of dwelling units.

House

A house is a detached building predominantly used for long-term residential purposes and consisting of only one dwelling unit. Thus, detached 'granny flats' and detached dwelling units (such as caretakers' residences) associated with non-residential buildings are defined as houses for the purpose of these statistics.

Units

'Units' or 'other residential building' is a building other than a house primarily used for long-term residential purposes and which contains (or has attached to it) more than one dwelling unit (e.g. includes blocks of flats, home units, attached townhouses, villa units, terrace houses, semidetached houses, maisonettes, duplexes, apartment buildings, etc.).
