R&R Quality Homes win HIA Northern Victoria Home of the Year Award

Stunning homes from across northern Victoria honoured with 2020 HIA Awards.

The prestigious 2020 HIA Northern Victoria Home of the Year award has been won by Wangaratta-based R&R Quality Homes, for a superb custom built home overlooking Lake Mulwala.

The win was announced with an online broadcast on Wednesday 2 December 2020.

Built to be the “ultimate in contemporary waterfront living”, HIA’s judges praised this home as “exceptional from front to back and top to bottom”. Oriented to take advantage of the views from almost every room, the judges found much to praise – from the exceptional joinery and the timber-lined exposed structural steel frame to the stacked stone lift shaft wall and the full home automation system.

“Every aspect of the house has been meticulously detailed, and it is a very worthy recipient of the 2020 HIA Northern Victoria Home of the Year award,” says Fiona Nield, HIA Regional Executive Director.

“HIA congratulates the entire R&R Quality Homes team on this achievement, and all of the other winners and finalists in the 2020 HIA Northern Victoria Regional Housing Awards. These projects truly are a showcase of the best of the best of the residential housing industry in Northern Victoria, and a testament to the quality of work carried out by HIA members.”

Other winners from the 2020 HIA Northern Victoria awards include Garraway Developments (Display Home of the Year), Hadar Investments (two awards, including Project Home of the Year), Elite

Renovations & Extensions / Smith and Sons Bendigo (Renovation/Addition Project of the Year) and Bathroom Renovation Rescue / Now Developments (Bathroom of the Year).

Jason Wescott Builder and Sandhurst Housing & Design won two awards each on the night, and several other builders won individual awards.

“All of the winners and finalists at these awards can be proud of their success in homebuilding and the stunning homes they have created”, concluded Ms Nield.

A full list of winners can be found below.
